

Dustin lives in San Francisco with his beautiful wife, Maggie, and his young and growing family.

He is really bad at biographies and hates writing about himself in third-person.

He wrote this book for his six-month old son, and hopes you love reading it as much as he loved writing it.

# RILEY THE ROBOT

Riley the Robot, a simple but not simplistic tale of a sleepy child and a lonely robot.

The robot has a few things to share, so sit down, settle in, and enjoy!
